

BUSINESS FINGERBOARD SIGNAGE APPLICATION

The Town of Bonavista has erected fingerboard signage for Bonavista-based businesses. These signs are placed in strategic locations around the community and will be the only road signage permitted in Bonavista. Any signs that are erected without Council approval will be removed immediately.

The intent of the signage standards and regulations is to balance the visibility of signage with the attractive appearance of the community. The Town regulates signage to establish a level playing field for all businesses.

Some signs are acceptable such as sidewalk signs, but these must be removed at the end of each business day. Signs placed directly on the business property are also permitted.

Fee: \$50 per year. Two signs max per business.
